2. Complete a minimum of 124 credit hours, with at least 60 hours at a bachelor's degree-granting institution
3. Complete at least 30 credit hours with a C average or above from Southwestern College

## Program Description

The quality of a service or product that meets or exceeds customers' expectations is a critical success factor for an organization in an increasingly competitive domestic or global environment. Effective quality management and leadership increase the potential for organizations to achieve this goal. The Bachelor of Science in business quality management program provides learners the opportunity to develop competencies in quality management practices related to change management, team engagement, international standards, quality management systems and systems, negotiation and conflict resolution, and data analysis and reporting. Emphasis is placed on quality management as an organizational strategy and the ethical, legal, and socially responsible behaviors expected from individuals and organizations. Throughout the program, learners are offered opportunities to explore the application of quality management in different service and manufacturing industries, and they select one type of organization and/or industry as a focus for their Capstone project. Graduates have practical, marketable quality management knowledge and skills grounded in industry-accepted theories and practices to help them enter and/or progress in a competitive job market, while building a solid theoretical foundation for potential graduate studies.

## Admission Requirements

1. Have completed a minimum of 6 post-high school college credits
2. Minimum GPA of 2.0

*All degree requirements are subject to change. Please see Southwestern College Professional Studies Catalog for the most current degree requirements. All course descriptions can be found online at [ps.sckans.edu](http://ps.sckans.edu).*
