3. Complete at least 30 credit hours with a C average or above from Southwestern College

Program Description

The Bachelor of Science in Business Quality Management program provides learners the opportunity to develop competencies in quality management practices related to change management, team engagement, international standard, quality management systems, negotiation and conflict resolution, and data analysis and reporting. Emphasis is placed on quality management as an organizational strategy and the ethical, legal and socially responsible behaviors expected from individuals in the organizations.

Throughout the program, learners are offered the opportunity to explore the application of quality management in different service and manufacturing industries, and they select one type of organization and/or industry as a focus for their Capstone project. Graduates have practical, marketable quality management knowledge and skills grounded in industry-accepted theories and practices to help them enter and/or progress in a competitive job market, while building a solid theoretical foundation for potential graduate studies.

Admission Requirements

1. Have completed a minimum of 6 post-high school college credits
2. Minimum GPA of 2.0

All degree requirements are subject to change. Please see Southwestern College Professional Studies Catalog for the most current degree requirements. All course descriptions can be found online at ps.sckans.edu.
