Managerial Economics  
BSAD 320 [all sections]  
Southwestern College Professional Studies  

COURSE SYLLABUS

I. Course Catalog Description  
Economic analysis provides essential knowledge for business decision making and the development of business strategies. Given global and regional economic constraints, learners analyze business problems and evaluation solutions by applying micro and macro level economics models and methods.  

II. Required and Supplementary Instructional Materials  
Textbook  

Supplemental Readings  
- “Bernanke’s Bubble Laboratory” by Justin Lahart (http://www.wsj.com/articles/SB121089412378097011)  
- “Gilead Signs Hepatitis C Pact to Cut Drug Cost for Poor” by Aditya Kalra and Zeba Siddiqui (http://www.reuters.com/article/2014/09/15/us-gilead-sciences-india-idUSKBN0HA0TT20140915)  
- “The Bargaining Problem” by John Nash (http://www.eecs.harvard.edu/cs286r/courses/spring02/papers/nash50a.pdf)  

III. Course Delivery  
There are two forms of course delivery Ground and Online:
Ground courses, or those that meet face-to-face on a weekly basis, also have an online component, which means some of the course content is delivered online. Southwestern College utilizes the Blackboard (Bb) learning management system.

Online courses typically contain a blend of synchronous (real-time) and asynchronous (not real-time) material. Depending on the course, you may be required at times to interact “live,” which might mean attending a scheduled Collaborate session. You may also be required to view or listen to a lecture or other video on a specific date and time. Of course, if there are circumstances that prohibit you from logging into a scheduled synchronous activity, an alternate assignment will be provided. Please refer to the Course at a Glance section which will note any synchronous activities.

IV. Learning Outcomes
Learning outcomes describe the knowledge, skills, values, and attitudes that learners gain as the result of a particular learning experience. Southwestern College Professional Studies has learning outcomes specific to each course and each undergraduate and graduate program of study, as well as institution-wide outcomes related to the mission and vision of the college. Outcomes can help learners and instructors focus on the big picture of the learning experience and can help inform potential employers about a graduate’s knowledge and skills.

Upon successfully completing this course, the learner will be able to:
1. Justify the role of managerial economics principles and practices in business decision making.
2. Explain economic models and methods, and their respective contributions to business decision making.
3. Apply appropriate economic models and methods to analyze different domestic and global business scenarios.
4. Evaluate various strategies that can be used to gain or maintain a sustainable competitive advantage, given variant domestic and global business scenarios.
5. Recommend business strategies, given findings from economic analysis and other relevant factors.

At the end of the course, learners may vary in their ability to achieve these outcomes. You are more likely to achieve these outcomes only if you attend class and/or online activities as required by the syllabus, complete the requirements for all assignments to the best of your ability, participate actively in class activities and group work as directed, and study diligently for exams.

V. Expectations
Learners can expect the instructor to:
- Respond to e-mail and phone contact attempts promptly (if you do not receive a response after 48 hours please follow-up as a technology glitch may have occurred)
- Substantially participate in weekly discussions/lecture
- Employ impartial and consistent grading practices
- Provide assignment grades and feedback in one week or less

Instructors can expect the learner to:
- Review the syllabus in its entirety requesting clarification prior to beginning week 1 coursework
- Obtain access to the required course materials prior to the class start date or notify the instructor of any delay no later than Tuesday of week 1 of the course
- Submit course assignment questions with enough notice to receive and incorporate feedback prior to the assignment due date (see course late policy)
- Possess basic skills in Microsoft Office, and have the ability to access Blackboard
- Include the course ID (Ex: CORE101) on all e-mail correspondence
- Check Blackboard course announcements often during the course
- Communicate with instructors and classmates in a professional and respectful manner
- Substantially participate in weekly discussion/lecture (it is strongly suggested that Bb posts be prepared in a word processing software application then checked for grammar errors prior to submission)
- Submit assignments via the appropriate avenue (e.g. discussion board, Bb assignment link, etc.)
- Adhere to the Southwestern College Student Code of Conduct and Standards of Academic Integrity
- Create and submit original work

XV. ADA Compliance Statement

Students in this course who have a disability preventing them from fully demonstrating their academic abilities should contact Steve Kramer, Disability Services Coordinator. This will begin the disability verification process and allow discussion of accommodations. He can be reached at (620) 229-6307 or (toll free) at 1-800-846-1543, or by email at steve.kramer@sckans.edu. The web page for Disability Services can be found here: http://www.sckans.edu/student-services/1st-class/sc-access/.

XVI. Senior Capstone and Graduate Projects:

The majority of the programs offered by Southwestern College Professional Studies conclude with a Senior Capstone or Graduate Project. During the Capstone or Project course students will be required to retrieve papers, assignments and projects that they created during their entire program of study. For this
reason it is imperative that students design a method of storing program course work for use during their final class at Southwestern College Professional Studies.
