I. **Course Catalog Description**
Effective interpersonal skills are essential for professionals as they communicate, collaborate, and negotiate with other individuals and groups within and outside an organization. Successful learners develop the professional interpersonal, facilitation, negotiation, conflict management, and dispute resolution skills necessary for success in today’s complex business environments. This complexity includes elements such as the social, cultural, and economic diversity of the workforce in domestic and global environments. Learners apply these skills in a series of scenarios including those related to personnel, team, contractual, procedural, change, and other stakeholder concerns. **Prerequisite: COM 125.**

II. **Required and Supplementary Instructional Materials**

III. **Course Delivery**
There are two forms of course delivery Ground and Online:

Ground courses, or those that meet face-to-face on a weekly basis, also have an online component, which means some of the course content is delivered online. Southwestern College utilizes the Blackboard (Bb) learning management system.

Online courses typically contain a blend of synchronous (real-time) and asynchronous (not real-time) material. Depending on the course, you may be required at times to interact “live,” which might mean attending a scheduled Collaborate session. You may also be required to view or listen to a lecture or other video on a specific date and time. Of course, if there are circumstances that prohibit you from logging in to a scheduled synchronous activity, an alternate assignment will be provided. Please refer to the **Course at a Glance** section which will note any synchronous activities.

IV. **Learning Outcomes**
Learning outcomes describe the knowledge, skills, values, and attitudes that learners gain as the result of a particular learning experience. Southwestern College Professional Studies has learning outcomes specific to each course and each undergraduate and graduate program of study, as well as institution-wide outcomes related to the mission and vision of the college. Outcomes can help learners and instructors focus on the big picture of the learning experience and can help inform potential employers about a graduate’s knowledge and skills.

Upon successfully completing this course, the learner will be able to:
- 1. Describe negotiation and conflict resolution theories, concepts, methods, and practices.
- 2. Explain the importance of professional relationship management practices and interpersonal skills to successful negotiations, conflict management, and conflict resolution.
- 3. Assess the socio-cultural, political, economic, interpersonal, positional, and other factors that influence negotiations and contribute to conflict in various scenarios within domestic and global contexts.
- 4. Evaluate different negotiation and conflict resolution strategies and methods, given various scenarios within domestic and global contexts.
- 5. Develop a negotiation or conflict resolution strategy and plan for its execution, given a scenario relevant to the field. Employ negotiation and conflict resolution strategies.
6. Apply legal, ethical, and socially responsible practices to negotiation, conflict management, and conflict resolution strategies and practice.

At the end of the course, learners may vary in their ability to achieve these outcomes. You are more likely to achieve these outcomes only if you attend class and/or online activities as required by the syllabus, complete the requirements for all assignments to the best of your ability, participate actively in class activities and group work as directed, and study diligently for exams.

### XVI. Senior Capstone and Graduate Projects:

The majority of the programs offered by Southwestern College Professional Studies conclude with a Senior Capstone or Graduate Project. During the Capstone or Project course students will be required to retrieve papers, assignments and projects that they created during their entire program of study. For this reason it is imperative that students design a method of storing program course work for use during their final class at Southwestern College Professional Studies.
