COURSE SYLLABUS

I. Course Catalog Description

All learners will prepare and submit a professional electronic capstone portfolio as a graduate requirement in this course. The portfolio serves as an opportunity for the learners to demonstrate their achievement of their respective degree program outcomes through their degree program coursework, and their commitment to lifelong learning through the identification of specific future learning goals. All learners will be required to prepare, conduct, and report on an applied learning project relevant to their degree program as a second graduate requirement in this course. This project will cover theory, concepts, practices, knowledge, and skills covered across the respective degree program courses, and their application to a real-life or simulated situation. Learners' projects from this course are also included in the final professional portfolio submitted at the end of the course. Prerequisite: Successful completion of all major courses.

II. Required and Supplementary Instructional Materials

None

III. Course Delivery

There are two forms of course delivery Ground and Online:

Ground courses, or those that meet face-to-face on a weekly basis, also have an online component, which means some of the course content is delivered online. Southwestern College utilizes the Blackboard (Bb) learning management system.

Online courses typically contain a blend of synchronous (real-time) and asynchronous (not real-time) material. Depending on the course, you may be required at times to interact "live," which might mean attending a scheduled Collaborate session. You may also be required to view or listen to a lecture or other video on a specific date and time. Of course, if there are circumstances that prohibit you from logging in to a scheduled synchronous activity, an alternate assignment will be provided. Please refer to the [Course at a Glance](#) section which will note any synchronous activities.

IV. Learning Outcomes

Learning outcomes describe the knowledge, skills, values, and attitudes that learners gain as the result of a particular learning experience. Southwestern College Professional Studies has learning outcomes specific to each course and each [undergraduate](#) and [graduate](#) program of study, as well as [institution-wide outcomes](#) related to the mission and vision of the college. Outcomes can help learners and instructors focus on the big picture of the learning experience and can help inform potential employers about a graduate's knowledge and skills.

Upon successfully completing this course, the learner will be able to:

1. Select, provide, and describe coursework (assignments, termed artifacts) from each major program course that demonstrate achievement of each of the program outcomes.
2. Assess the results of each artifact and appraise each artifact's contribution toward demonstration of the achievement of relevant outcomes.
3. Articulate the theoretical and/or research basis that supports how each artifact contributes toward demonstration of the achievement of relevant outcomes.

4. Identify and describe how the knowledge and skills gained from accomplishment of each major program outcome will be applied currently and potentially be applied in the future.
5. Identify and describe how he or she will continue to grow, personally and professionally, relevant to each program outcome, and create subsequent learning goals for each.
6. Apply the knowledge and skills gained in the major program to relevant research and evaluation of a current real-life company.

At the end of the course, learners may vary in their ability to achieve these outcomes. You are more likely to achieve these outcomes only if you attend class and/or online activities as required by the syllabus, complete the requirements for all assignments to the best of your ability, participate actively in class activities and group work as directed, and study diligently for exams.

V. Expectations

Learners can expect the instructor to:

XVI. Senior Capstone and Graduate Projects:

The majority of the programs offered by Southwestern College Professional Studies conclude with a Senior Capstone or Graduate Project. During the Capstone or Project course students will be required to retrieve papers, assignments and projects that they created during their entire program of study. For this reason it is imperative that students design a method of storing program course work for use during their final class at Southwestern College Professional Studies.
