**COURSE SYLLABUS**

---

**I. Course Catalog Description**

Knowledge of the healthcare industry's complex environment equips those in health care administration roles for current and emerging roles and responsibilities. Learners study the U.S. healthcare industry from a historical perspective to the present. Learners examine the organization, management, resources, delivery, and financing of health services in the United States. Learners assess the political, cultural, social, behavioral, demographic, economic, and historical factors that shape the U.S. healthcare industry and their potential impact on the future of healthcare delivery in the U.S.

**II. Required and Supplementary Instructional Materials**

Shi, LeiYu (2015). Delivering health care in america: A systems approach (6th ed.). Burlington, MA: Jones & Bartlett Learning. Print ISBN(s): ISBN-13 9781284058451, ISBN-10 128405845X CourseSmart ISBN(s): ISBN-10 1284037754, ISBN-13 9781284037753

**III. Course Delivery**

There are two forms of course delivery Ground and Online:

Ground courses, or those that meet face-to-face on a weekly basis, also have an online component, which means some of the course content is delivered online. Southwestern College utilizes the Blackboard (Bb) learning management system.

Online courses typically contain a blend of synchronous (real-time) and asynchronous (not real-time) material. Depending on the course, you may be required at times to interact "live," which might mean attending a scheduled Collaborate session. You may also be required to view or listen to a lecture or other video on a specific date and time. Of course, if there are circumstances that prohibit you from logging in to a scheduled synchronous activity, an alternate assignment will be provided. Please refer to the [Course at a Glance](#) section which will note any synchronous activities.

**IV. Learning Outcomes**

Learning outcomes describe the knowledge, skills, values, and attitudes that learners gain as the result of a particular learning experience. Southwestern College Professional Studies has learning outcomes specific to each course and each [undergraduate](#) and [graduate](#) program of study, as well as [institution-wide outcomes](#) related to the mission and vision of the college. Outcomes can help learners and instructors focus on the big picture of the learning experience and can help inform potential employers about a graduate's knowledge and skills.

Upon successfully completing this course, the learner will be able to:

1. Describe the evolution of the U.S. health care industry and healthcare delivery during the 20th century through today.
2. Explain the major disruptive elements that contributed to substantial change in the organization, management, resources, delivery, and financing of health services in the U.S.
3. Distinguish among the political, cultural, social, behavioral, demographic, and economic factors that influence healthcare policy and the characteristics of the healthcare delivery system in the U.S.

4. Differentiate the private, quasi-public, and public sectors of the U.S. health care industry and the characteristics of those that receive health care coverage and/or services from each.
5. Assess the challenges encountered by both private and public health insurance, and the accessibility to health care for those without insurance.
6. Project the potential impact of emerging political, cultural, social, behavioral, demographic, and economic trends and disruptive elements on the future of the healthcare industry and delivery system in the U.S. over the next five to ten years.

At the end of the course, learners may vary in their ability to achieve these outcomes. You are more likely to achieve these outcomes only if you attend class and/or online activities as required by the syllabus, complete the requirements for all assignments to the best of your ability, participate actively in class activities and group work as directed, and study diligently for exams.

#### V. Expectations

Learners can expect the instructor to:

- Respond to e-mail and phone contact attempts promptly (if you do not receive a response after 48 hours please follow-up as a technology glitch may have occurred)
- Substantially participate in weekly discussions/lecture
- Employ impartial and consistent grading practices
- Provide assignment grades and feedback in one week or less

Instructors can expect the learner to:

- Review the syllabus in its entirety requesting clarification prior to beginning week 1 coursework
- Obtain access to the required course materials prior to the class start date or notify the instructor of any delay no later than Tuesday of week 1 of the course
- Submit course assignment questions with enough notice to receive and incorporate feedback prior to the assignment due date (see [course late policy](#))
- Possess basic skills in Microsoft Office, and have the ability to access Blackboard
- Include the [course ID](#) (Ex: CORE101) on all e-mail correspondence
- Check Blackboard course announcements often during the course
- Communicate with instructors and classmates in a professional and respectful manner
- Substantially participate in weekly discussion/lecture (it is strongly suggested that Bb posts be prepared in a word processing software application then checked for grammar errors prior to submission)
- Submit assignments via the appropriate avenue (e.g. discussion board, Bb assignment link, etc.)
- Adhere to the Southwestern College [Student Code of Conduct](#) and [Standards of Academic Integrity](#)
- Create and submit original work

**XVI. Senior Capstone and Graduate Projects:**

The majority of the programs offered by Southwestern College Professional Studies conclude with a Senior Capstone or Graduate Project. During the Capstone or Project course students will be required to retrieve papers, assignments and projects that they created during their entire program of study. For this reason it is imperative that students design a method of storing program course work for use during their final class at Southwestern College Professional Studies.
