

**Criminology & Deviant Behavior**  
CJUS 400 [all sections]  
Southwestern College Professional Studies

**COURSE SYLLABUS**

**I. Course Catalog Description**

In this course learners explore the origins of criminal behavior and apply criminological knowledge in the effort to understand criminal and deviant behavior. Learners will examine misconceptions and myths about crime as they develop an informed and critical understanding of crime as a function of social and political structures. Learners will also examine how politics and societal attitudes impact policy formation and develop the tools to use data, facts, and evidence to achieve results. Finally, learners will examine the evolution of theories of crime causation, strategies and purposes of crime measurement, and new and future trends in crime.

**II. Required and Supplementary Instructional Materials**

*All required and supplementary materials are included in the Bb course.*

**III. Course Delivery**

There are two forms of course delivery Ground and Online:

Ground courses, or those that meet face-to-face on a weekly basis, also have an online component, which means some of the course content is delivered online. Southwestern College utilizes the Blackboard (Bb) learning management system.

Online courses typically contain a blend of synchronous (real-time) and asynchronous (not real-time) material. Depending on the course, you may be required at times to interact “live,” which might mean attending a scheduled Collaborate session. You may also be required to view or listen to a lecture or other video on a specific date and time. Of course, if there are circumstances that prohibit you from logging in to a scheduled synchronous activity, an alternate assignment will be provided. Please refer to the [Course at a Glance](#) section which will note any synchronous activities.

**IV. Learning Outcomes**

Learning outcomes describe the knowledge, skills, values, and attitudes that learners gain as the result of a particular learning experience. Southwestern College Professional Studies has learning outcomes specific to each course and each [undergraduate](#) and [graduate](#) program of study, as well as [institution-wide outcomes](#) related to the mission and vision of the college. Outcomes can help learners and instructors focus on the big picture of the learning experience and can help inform potential employers about a graduate’s knowledge and skills.

Upon successfully completing this course, the learner will be able to:

1. Discuss the causes, legal definitions, measurement, incidence, and impact of crime and deviance.
2. Analyze crime causation theories based on biological, psychological, and personal traits.
3. Apply theoretical perspectives that refer to social structure and processes.
4. Critique the effectiveness of society’s responses to criminal and deviant behavior.
5. Discuss various definitions of crime, our efforts to understand the causes of crime, and the impact of specific policy responses to criminal behavior.
6. Identify a range of criminology careers.

At the end of the course, learners may vary in their ability to achieve these outcomes. You are more likely to achieve these outcomes only if you attend class and/or online activities as required by the syllabus,

complete the requirements for all assignments to the best of your ability, participate actively in class activities and group work as directed, and study diligently for exams.
