Southwestern College Professional Studies

COURSE SYLLABUS

I. Course Catalog Description

This course provides learners with an overview of the ethical decision-making process in the business management context. The course will equip learners with the framework to deal with complex business issues that play a critical role in an organization's success. Learners will analyze real-world cases related to fraud, discrimination, harassment, and other ethical issues that have an impact on businesses. Throughout the course, learners will apply a framework for ethical decision making, explore what makes a successful ethics program, and consider business ethics on a global scale.

II. Required and Supplementary Instructional Materials

All required and supplementary materials are included in the Bb course

III. Course Delivery

There are two forms of course delivery Ground and Online:

Ground courses, or those that meet face-to-face on a weekly basis, also have an online component, which means some of the course content is delivered online. Southwestern College utilizes the Blackboard (Bb) learning management system.

Online courses typically contain a blend of synchronous (real-time) and asynchronous (not real-time) material. Depending on the course, you may be required at times to interact "live," which might mean attending a scheduled Collaborate session. You may also be required to view or listen to a lecture or other video on a specific date and time. Of course, if there are circumstances that prohibit you from logging in to a scheduled synchronous activity, an alternate assignment will be provided. Please refer to the [Course at a Glance](#) section which will note any synchronous activities.

IV. Learning Outcomes

Learning outcomes describe the knowledge, skills, values, and attitudes that learners gain as the result of a particular learning experience. Southwestern College Professional Studies has learning outcomes specific to each course and each [undergraduate](#) and [graduate](#) program of study, as well as [institution-wide outcomes](#) related to the mission and vision of the college. Outcomes can help learners and instructors focus on the big picture of the learning experience and can help inform potential employers about a graduate's knowledge and skills.

Upon successfully completing this course, the learner will be able to:

1. Describe the role of business ethics and of stakeholders in social responsibility and corporate governance.
2. Summarize common ethical issues and the forces that have institutionalized business ethics.
3. Apply a comprehensive framework for ethical decision making in business.
4. Analyze how moral philosophies, values, and corporate culture influence individual and group ethical decision making in business.
5. Describe the processes involved in establishing, implementing, and monitoring a successful ethics program.
6. Discuss ethical decision making in global business.

At the end of the course, learners may vary in their ability to achieve these outcomes. You are more likely to achieve these outcomes only if you attend class and/or online activities as required by the syllabus,

complete the requirements for all assignments to the best of your ability, participate actively in class activities and group work as directed, and study diligently for exams.
