

## Organizational Structures and Behavior

LEAD575 [all sections]

Southwestern College Professional Studies

### COURSE SYLLABUS

#### I. Course Catalog Description

Participants will learn decision making models, principles of organizational hierarchy, and how organizations are impacted by leadership styles. Participants will analyze how their own leadership behavior impacts others through 360-degree feedback.

#### II. Required and Supplementary Instructional Materials

McShane, S., & van Glinow, M. (2013). *Organizational behavior: Emerging knowledge, global reality* (6th ed.). New York, NY: McGraw-Hill.

#### III. Course Delivery

There are two forms of course delivery Ground and Online:

Ground courses, or those that meet face-to-face on a weekly basis, also have an online component, which means some of the course content is delivered online. Southwestern College utilizes the Blackboard (Bb) learning management system.

Online courses typically contain a blend of synchronous (real-time) and asynchronous (not real-time) material. Depending on the course, you may be required at times to interact “live,” which might mean attending a scheduled Collaborate session. You may also be required to view or listen to a lecture or other video on a specific date and time. Of course, if there are circumstances that prohibit you from logging in to a scheduled synchronous activity, an alternate assignment will be provided. Please refer to the [Course at a Glance](#) section which will note any synchronous activities.

#### IV. Learning Outcomes

Learning outcomes describe the knowledge, skills, values, and attitudes that learners gain as the result of a particular learning experience. Southwestern College Professional Studies has learning outcomes specific to each course and each [undergraduate](#) and [graduate](#) program of study, as well as [institution-wide outcomes](#) related to the mission and vision of the college. Outcomes can help learners and instructors focus on the big picture of the learning experience and can help inform potential employers about a graduate’s knowledge and skills.

Upon successfully completing this course, the learner will be able to:

- Assess the ways in which individual differences and/or commonalities influence organizational activities.
- Discuss one's own differences and/or commonalities with co-workers and how these influence organizational activities.
- Develop strategies for building teams and managing the various stages of team development.
- Explain how to minimize the costs of teams versus individuals and how to maximize the benefits of teams and/or choose the appropriate use of teams.
- Use team differences and/or commonalities in decision-making and goal-setting.
- Describe various methods to handle team conflict.
- Assess one's own performance as a team member.
- Discuss how theories of organizational structure/behavior relate to actual business practices.
- Develop strategies for diagnosing the organizational context and why doing so is significant.
- Explain the implications of organizational structure, climate and culture on an organization.

- Describe ways in which organizational change can affect all aspects of the organization from the individual to the group to the overall structure and culture.

At the end of the course, learners may vary in their ability to achieve these outcomes. You are more likely to achieve these outcomes only if you attend class and/or online activities as required by the syllabus, complete the requirements for all assignments to the best of your ability, participate actively in class activities and group work as directed, and study diligently for exams.

### XVI. Senior Capstone and Graduate Projects:

The majority of the programs offered by Southwestern College Professional Studies conclude with a Senior Capstone or Graduate Project. During the Capstone or Project course students will be required to retrieve papers, assignments and projects that they created during their entire program of study. For this reason it is imperative that students design a method of storing program course work for use during their final class at Southwestern College Professional Studies.
