

## Contemporary Security Administration

MSA 500 [all sections]

Southwestern College Professional Studies

### COURSE SYLLABUS

---

#### I. Course Catalog Description

This course provides leading-edge concepts for Chief Security Officers (CSO) as well as middle to upper-level security management professionals. The principal focus is emerging criminal and terrorist threats that pose serious challenges to professionals throughout the security industry. Core areas of security are also comprehensively covered as well as business management and leadership competencies.

#### II. Required and Supplementary Instructional Materials

Fay, J. J. (2011). *Contemporary security management* (3rd ed.). Burlington, MA: Elsevier.

Kovacich, G. L., & Halibozek, E. (2006). *Security metrics management: How to manage the costs of an assets protection program*. Burlington, MA: Elsevier.

#### III. Course Delivery

There are two forms of course delivery Ground and Online:

Ground courses, or those that meet face-to-face on a weekly basis, also have an online component, which means some of the course content is delivered online. Southwestern College utilizes the Blackboard (Bb) learning management system.

Online courses typically contain a blend of synchronous (real-time) and asynchronous (not real-time) material. Depending on the course, you may be required at times to interact "live," which might mean attending a scheduled Collaborate session. You may also be required to view or listen to a lecture or other video on a specific date and time. Of course, if there are circumstances that prohibit you from logging in to a scheduled synchronous activity, an alternate assignment will be provided. Please refer to the [Course at a Glance](#) section which will note any synchronous activities.

#### IV. Learning Outcomes

Learning outcomes describe the knowledge, skills, values, and attitudes that learners gain as the result of a particular learning experience. Southwestern College Professional Studies has learning outcomes specific to each course and each [undergraduate](#) and [graduate](#) program of study, as well as [institution-wide outcomes](#) related to the mission and vision of the college. Outcomes can help learners and instructors focus on the big picture of the learning experience and can help inform potential employers about a graduate's knowledge and skills.

Upon successfully completing this course, the learner will be able to:

1. Discuss the historical roots of security, security strategy, leading, organizing, and managing people, and the role of security professionals and security metrics management.
2. Describe budget management, managing change, making decisions, managing risk, and managing guard operations.
3. Apply security metrics management as they relate to personnel security, security education and awareness training, surveys and risk management, and the guard force; security compliance audits, technical security systems, locks and keys, and investigations and noncompliance audits; information security, contingency planning, and information systems security; fire protection, government security, mergers, acquisitions or divestitures security, outsourcing, and security metrics management technology.

4. Evaluate ways to manage physical security, access control, investigations and pre-employment screening programs.
5. Evaluate the critical security management domains of emergency management, incident management, and information security.
6. Describe and discuss substance abuse prevention, executive protection, workplace violence, security awareness, vulnerability assessment, and security system design.
7. Describe and compose security metrics management as they relate to a corporate assets protection program, executive protection, and event security.
8. Examine and discuss the nature of terrorism, counterterrorism, weapons of mass destruction, assessment of the terrorist threat, and critical national infrastructure.

At the end of the course, learners may vary in their ability to achieve these outcomes. You are more likely to achieve these outcomes only if you attend class and/or online activities as required by the syllabus, complete the requirements for all assignments to the best of your ability, participate actively in class activities and group work as directed, and study diligently for exams.

#### V. Expectations

Learners can expect the instructor to:

- Respond to e-mail and phone contact attempts promptly (if you do not receive a response after 48 hours please follow-up as a technology glitch may have occurred)
- Substantially participate in weekly discussions/lecture
- Employ impartial and consistent grading practices
- Provide assignment grades and feedback in one week or less

Instructors can expect the learner to:

- Review the syllabus in its entirety requesting clarification prior to beginning week 1 coursework
- Obtain access to the required course materials prior to the class start date or notify the instructor of any delay no later than Tuesday of week 1 of the course
- Submit course assignment questions with enough notice to receive and incorporate feedback prior to the assignment due date (see [course late policy](#))
- Possess basic skills in Microsoft Office, and have the ability to access Blackboard
- Include the [course ID](#) (Ex: CORE101) on all e-mail correspondence
- Check Blackboard course announcements often during the course
- Communicate with instructors and classmates in a professional and respectful manner
- Substantially participate in weekly discussion/lecture (it is strongly suggested that Bb posts be prepared in a word processing software application then checked for grammar errors prior to submission)
- Submit assignments via the appropriate avenue (e.g. discussion board, Bb assignment link, etc.)
- Adhere to the Southwestern College [Student Code of Conduct](#) and [Standards of Academic Integrity](#)
- Create and submit original work

**XVI. Senior Capstone and Graduate Projects:**

<sup>1</sup> Final Paper Assignment due Unit 6

The majority of the programs offered by Southwestern College Professional Studies conclude with a Senior Capstone or Graduate Project. During the Capstone or Project course students will be required to retrieve papers, assignments and projects that they created during their entire program of study. For this reason it is imperative that students design a method of storing program course work for use during their final class at Southwestern College Professional Studies.
