COURSE SYLLABUS

I. Course Catalog Description

What does leadership really mean? What are the characteristics of successful leadership? What do successful leaders actually do? Learners explore how to improve upon or develop their leadership skills through examination of leadership relationships, organizational behaviors, interpersonal skills, and leadership practices. Learners develop a sound foundation in the fundamentals of leadership with the goal of being better equipped to lead people and projects, handle challenges in the work environment, and add value to their organization.

II. Required and Supplementary Instructional Materials

Northouse, P. G. (2012). *Introduction to leadership: Concepts and practice* (2nd ed.). Thousand Oaks, CA: Sage Publications.

III. Course Delivery

There are two forms of course delivery Ground and Online:

Ground courses, or those that meet face-to-face on a weekly basis, also have an online component, which means some of the course content is delivered online. Southwestern College utilizes the Blackboard (Bb) learning management system.

Online courses typically contain a blend of synchronous (real-time) and asynchronous (not real-time) material. Depending on the course, you may be required at times to interact “live,” which might mean attending a scheduled Collaborate session. You may also be required to view or listen to a lecture or other video on a specific date and time. Of course, if there are circumstances that prohibit you from logging in to a scheduled synchronous activity, an alternate assignment will be provided. Please refer to the [Course at a Glance](#) section which will note any synchronous activities.

IV. Learning Outcomes

Learning outcomes describe the knowledge, skills, values, and attitudes that learners gain as the result of a particular learning experience. Southwestern College Professional Studies has learning outcomes specific to each course and each [undergraduate](#) and [graduate](#) program of study, as well as [institution-wide outcomes](#) related to the mission and vision of the college. Outcomes can help learners and instructors focus on the big picture of the learning experience and can help inform potential employers about a graduate’s knowledge and skills.

- Explain the fundamentals of leadership: theory, principles, applications, and the different types
- Describe the role that ethical reasoning in leadership practices and decision making
- Discuss the role of critical thinking in leadership practice
- Articulate personal views relating to leadership and personality
- Apply the concepts and principles of leadership and personality in a work environment and lead effective change initiatives

At the end of the course, learners may vary in their ability to achieve these outcomes. You are more likely to achieve these outcomes only if you attend class and/or online activities as required by the syllabus,

complete the requirements for all assignments to the best of your ability, participate actively in class activities and group work as directed, and study diligently for exams.

XVI. Senior Capstone and Graduate Projects:

The majority of the programs offered by Southwestern College Professional Studies conclude with a Senior Capstone or Graduate Project. During the Capstone or Project course students will be required to retrieve papers, assignments and projects that they created during their entire program of study. For this reason it is imperative that students design a method of storing program course work for use during their final class at Southwestern College Professional Studies.
