COURSE SYLLABUS

I. Course Catalog Description

Introduction to Psychology explores the major perspectives, principles, theories, and methods that govern the study of mental processes and behaviors. You will trace psychology's historical roots, scientific basis, and major perspectives. In addition, you will consider contemporary and historical theories of how biological, cognitive, and environmental factors underlie and influence human development, sensation and perception, consciousness, intelligence, and social dynamics. This course also will introduce you to the theories and processes essential to learning, memory, motivation, and personality. Additionally, you will identify psychological disorders and their treatments, and discuss application of psychological principles to everyday experiences and real-life examples. Three credit hours.

II. Required and Supplementary Instructional Materials

Pastorino, E. and Doyle-Portillo, S. (2016). *What is Psychology?: Foundations, Applications, and Integration*, 3rd Ed. Cengage Learning. ISBN: 9781305088740

III. Course Delivery

There are two forms of course delivery, Ground and Online:

Ground courses, or those that meet face-to-face on a weekly basis, also have an online component, which means some of the course content is delivered online. Southwestern College utilizes the Blackboard (Bb) learning management system.

Online courses typically contain a blend of synchronous (real-time) and asynchronous (not real-time) material. Depending on the course, you may be required at times to interact "live," which might mean attending a scheduled Collaborate session. You may also be required to view or listen to a lecture or other video on a specific date and time. Of course, if there are circumstances that prohibit you from logging in to a scheduled synchronous activity, an alternate assignment will be provided. Please refer to the [Course at a Glance](#) section which will note any synchronous activities.

IV. Learning Outcomes

Learning outcomes describe the knowledge, skills, values, and attitudes that learners gain as the result of a particular learning experience. Southwestern College Professional Studies has learning outcomes specific to each program of study that are in line with the institutional outcomes of critical thinking, ethical reasoning, leadership, communication, and career preparation. Course outcomes support program outcomes and are listed below.

Upon successfully completing this course, the learner will be able to:

1. Describe the major perspectives and methods that govern the study of mental processes and behaviors.
2. Examine the biological structures and processes that underlie psychological phenomena.
3. Describe the contributions of major figures and scientific studies to the understanding of psychological phenomena.
4. Evaluate theories that attempt to explain various aspects of human behavior and mental processes.
5. Apply psychological principles to the analysis of everyday experiences and real-life examples.

6. Examine the relative influence of biological, environmental, and sociocultural factors on human psychology.
7. Examine current scientific research and findings related to various types of psychological disorders.

At the end of the course, learners may vary in their ability to achieve these outcomes. You are more likely to achieve these outcomes only if you attend class and/or online activities as required by the syllabus, complete the requirements for all assignments to the best of your ability, participate actively in class activities and group work as directed, and study diligently for exams.

V. Expectations

Learners can expect the instructor to:

- Respond to e-mail and phone contact attempts promptly (if you do not receive a response after 48 hours please follow-up as a technology glitch may have occurred)
- Substantially participate in weekly discussions/lecture
- Employ impartial and consistent grading practices
- Provide assignment grades and feedback in one week or less

Instructors can expect the learner to:

- Review the syllabus in its entirety requesting clarification prior to beginning week 1 coursework
- Obtain access to the required course materials prior to the class start date or notify the instructor of any delay no later than Tuesday of week 1 of the course
- Submit course assignment questions with enough notice to receive and incorporate feedback prior to the assignment due date (see [course late policy](#))
- Possess basic skills in Microsoft Office, and have the ability to access Blackboard
- Include the [course ID](#) (Ex: CORE101) on all e-mail correspondence
- Check Blackboard course announcements often during the course
- Communicate with instructors and classmates in a professional and respectful manner
- Substantially participate in weekly discussion/lecture (it is strongly suggested that Bb posts be prepared in a word processing software application then checked for grammar errors prior to submission)
- Submit assignments via the appropriate avenue (e.g. discussion board, Bb assignment link, etc.)
- Adhere to the Southwestern College [Student Code of Conduct](#) and [Standards of Academic Integrity](#)
- Create and submit original work

XVI. Senior Capstone and Graduate Projects:

The majority of the programs offered by Southwestern College Professional Studies conclude with a Senior Capstone or Graduate Project. During the Capstone or Project course students will be required to retrieve papers, assignments and projects that they created during their entire program of study. For this reason it is imperative that students design a method of storing program course work for use during their final class at Southwestern College Professional Studies.
