Program Description

With the dynamic security challenges of the 21st Century, the need for security professionals with expertise in all aspects of security management and operational administration are in high demand. Security professionals enable private and public organizations to strengthen existing security measures and develop policies and procedures to ensure a safe and secure working environment, as well as prevent or mitigate organizational losses. The Security Management major is designed for those pursuing employment opportunities or advancement in managerial roles in private or government security. With specific emphasis on the integration of contemporary security practices and administration, information security, ethics, continuity, risk management, investigations, and industry best practices, this degree offers the knowledge required to enter into this dynamic and competitive field. Those completing the Security Management program are prepared for a diverse group of Security Management and related industry jobs in physical security, loss prevention and investigations, information and homeland security, emergency management, and crime prevention. Related courses are supported by resources from FEMA's Emergency Management Higher Education (EM Hi-Ed) Program. Our security management program is aligned with academic and industry wide technical competencies illustrated in American Society for Industrial Security (ASIS's) Enterprise Security Model.

Admission Requirements

1. Have completed a minimum of 6 post-high school college credits
2. Minimum GPA of 2.0

All degree requirements are subject to change. Please see Southwestern College Professional Studies Catalog for the most current degree requirements. All course descriptions can be found online at ps.sckans.edu.
