# Graduate Certificate in Enterprise Risk Management

## Core Major Requirements

- MSA510 Enterprise Risk Management
- MSA515 Physical Security Planning & Vulnerability Assessment
- MSA520 Administration of Information Security
- MSA565 Organizational Security Investigations
- MSA585 Emergency, Disaster & Contingency Management

## Program Description

The Graduate Certificate in Enterprise Risk Management emphasizes the executive analysis and assessment of organizations' security vulnerability. It is designed to prepare the manager with security administration responsibilities for contingency planning and investigation in addition to systematic assessment of organization risk. Learners will have an opportunity to examine various models and practices that help the security management professional balance the costs and risks facing today's organizations.

## Admission Requirements

Anyone interested in completing the Enterprise Risk Management Certificate may complete a Southwestern College Professional Studies Graduate Application for Admission. The five courses comprising the Enterprise Risk Management Certificate can be completed in eight months or less in convenient six-week classes with no prerequisites.

Individuals completing the Enterprise Risk Management Certificate at Southwestern College may apply all of these 15 credit hours earned toward a Master of Science in Security Administration degree.
