2. Have an overall grade point average of 3.0, with no grade below a C (2.0)
3. Complete a minimum of 30 credit hours

Program Description

The Master of Science in Leadership program prepares the student for leadership positions in various organizations. The student develops skills required to become a more effective leader in military, government, health care, and education organizations, as well as small business, non-profit, or corporate environments. The emphasis is on practical application of relationship management; best leadership practices, which are strongly supported by research; and successful examples of leadership styles and organizational structures with a global and ethical perspective. The M.S.L. graduate exhibits competency in interpersonal and written communication, and also demonstrates the essential leadership practices of inspiring a vision, encouraging others to act, data driven strategic planning, and ethical reasoning, which are all necessary for leaders in today's society. The program is designed so that students can use resources provided throughout the program to apply their leadership skills to leading change and quality initiatives. Students learn practical problem solving and how to evaluate the most effective ways to lead their organizations. The Master of Science in Leadership program also may inspire students to continue in additional graduate degree programs. Students must earn a grade of "C" or better in each course required for the program and maintain a 2.5 GPA in the program.

Admission Process

1. Complete graduate application forms
2. Provide current resume
3. Submit two professional letters of recommendation (at least one from a current or former employer)
4. Turn in one-page personal essay
5. Submit unofficial transcript from a bachelor's degree-granting institution. Official transcripts must be received within 8 weeks following the start of class.

All degree requirements are subject to change. Please see Southwestern College Professional Studies Catalog. All course descriptions can be found online at ps.sckans.edu.
