Program Description

The Southwestern College Professional Studies Master of Science in Management program (MSM) prepares leaders of today's complex and diverse business environment to manage key business operations and lead their organizations to success. The learner will develop skills in areas that support the management functions of planning, organizing, leading, and measuring the performance of the organization. Topics include project management, human resource management, finance, organizational ethics and statistical analysis.

The program not only introduces the learner to strategic, tactical and operations areas, but also to a variety of leadership theories and styles necessary for leading successful organizations. The MSM graduate had demonstrated competence in interpersonal and written communication, ethical reasoning through complex practical application activities as well as the ability to utilize resources to continue learning about best practices in management in order to prepare the learner for advancement in their field. The strong foundational concepts taught by professionals support the learners in the completion of projects that make a positive difference in their workplaces, churches, communities, or personal lives, and also my inspire them to continue in additional graduate degree programs.

Admission Process

1. Complete graduate application forms
2. Provide current resume
3. Submit two professional letters of recommendation (at least one from a current or former employer)
4. Turn in one-page personal essay
5. Submit unofficial transcript from a bachelor's degree-granting institution. Official transcripts must be received within 8 weeks following the start of class.

All degree requirements are subject to change. Please see Southwestern College Professional Studies Catalog. All course descriptions can be found online at ps.sckans.edu.
